

## School of Graduate Studies Al al-Bayt University

The School of Graduate Studies seeks to contribute to the realization of Al al-Bayt University's vision as a national institution distinguished in providing educational, research, and community services, as well as deepening knowledge at the local, regional, and global levels, by working to develop graduate students' ability to conduct scientific research in the university's multiple disciplines. Participate in the planning and implementation of graduate programs (Ph.D., Masters, and Higher Diploma) under University Council and Deans' Council guidelines.

The School of Graduate Studies oversees and coordinates graduate student admission, approving the appointment of supervisors for doctoral and master's theses, forming discussion and judging committees for theses, and approving the granting of master's degrees, doctorate degrees, and higher diplomas at the university in accordance with the university's policies.

Currently, the School supervises two (2) doctoral programs, thirty-eight (38) master's programs, and four (4) diploma programs, including programs for all the university's faculties (humanitarian and scientific).
