Prince Hussein bin Abdullah Faculty of Information Technology
Information Systems

Course Title : Modelind and Simulation for Business

Course Number : 902352

Credit Hours : 3

Pre requisite :

Placement :

Instructor:

Course Description :

This course define principles for computer simulation and modelling

it covers theoritical and practical concepts for discrete and continuous event simulation

It covers four major approaches to discrete event simulation:

- 1- Three phase approach
- 2- Process_Baesd Approach
- 3-Event_Based Approach
- 4- Activity_Based Approach

Also it covers the idea of deterministic and Stochastic systems

General objectives :

No Available Information....

Course outline :
