

**Al-Al Bayt University**  
**Prince Hussein bin Abdullah Faculty of Information Technology**

**Course Title :**Management Information Systems Prptection

**Course Number :**904480

**Credit Hours :**3

**Pre requisite :**902230

**Placement :**

**Instructor:** ama ,

**Course Description :**

null

**General objectives :**

This course concentrates on providing the MIS students with a practical survey of both principles and practices of cryptography and network security. It represents a supporting course for all information systems students to learn them how to build a secure information system and support it with many of security services like Confidentiality, Availability, and Integrity.

The course introduces the basic theory and practice of tools and techniques used in computer security. We will cover important topics such as popular Classical and Modern encryption techniques, Firewalls, Malicious software, Data Backup, etc...
