

Teaching type	Credit hours(1)	Free Hand Sketching (1)	course number
face-to-face	pre-requisite:...		703111
<p>This course aims to teach drawing skills without using engineering tools and to understand the artistic and architectural elements in their size, texture, colours, and materials involved in their formation, and to know the ways of expressing them by hand drawing. As well as how to draw plants, objects, different masses, and people using different colours and pencils, and the mechanisms of enlarging and dropping scenes through individual and group practical exercises.</p>
